Swopper

The **Swopper**® seating platform incorporates motion into the act of sitting, allowing for a range of natural and intuitive movements, including tilting, swaying and bouncing. It's 3D motion makes sitting from one position to another effortless and fun. Active sitting has never been so stylish!

- Adjusts to user's height, weight and work surface
- Improves posture and strengthens core muscles
- Helps stabilize the spine and reduce back pain
- Increases circulation and enhances alertness

3Dee Active Office Chair

Not all movement is healthy. Monotonous movements, abrupt movements, unidirectional movements and too much movement can stress the body. That's why the **3Dee**

Active Office Chair motion concept was developed with health experts, chiropractors, and doctors. The 3Dee concept is different. It's patented, it works...and it feels good!

- Adjustable height and tension
- Flexible sideways movement
- Lumbar support
